

50 Years! Whoop, Whoop! Wow, and to think I got to be a part of that legacy! I absolutely LOVED the year I spent teaching at Southwestern Middle School before I moved to Georgia. There was so much support from the administration and from the parents that it made teaching there so much easier. As for the students, what can I say? They were some of the best kids I have ever had the pleasure of teaching! They made me laugh, they made me cry, they helped me to thank God every day for the blessings in my life. Of course, I can't end this little blurb without giving honor where honor is due. That honor goes to Ms. Oatis...by far the best principal I have ever served under! She encourages and uplifts her staff in a way that makes you know she truly cares about you. Way to go Ms. Oatis...you are the best! Congratulations Southwestern Middle School for 50 great years of helping students learn and grow. Awesome...truly, truly awesome!

More than a conqueror,
