

Even though I haven't been Southwestern Middle School that long, it is a really great school. It is a school unlike any other, the teachers are excellent and hardworking. If you do your very best you succeed. This school has a long history, almost 50 years. I am glad I went there. My grades are even higher than they were in elementary school. I would love to go there for 7th and 8th grade. It is an awesome 5 Star School for everyone with the right mind.
