

Having served as the Southwestern behavior specialist from 2002-2006, I was extremely proud to be hired as the 6th grade counselor in 2006. Since I knew some of these 6 graders from their former elementary schools, we were going to be learning and growing together! It was great to see them grow, as I presented the 6 Pillars of Character, I witnessed their growing sense of community and social development. This was an amazingly funny group of students who always had something going on.

Thanks for letting me share.
